MyChart Proxy

How To Manage Your Loved One's Health Information in MyChart

Renown[®]
HEALTH

What Is MyChart?

MyChart is a secure online patient portal that allows you to access your Renown Health medical record, securely message your provider and manage your healthcare information.

What Is MyChart Proxy?

Proxy access allows parents, legal guardians and caregivers to log in to their personal MyChart account and connect to the health information of a patient they represent.

As a proxy, you can view upcoming appointments, request appointments, view lab results, email a doctor on the patient's behalf, view medications, request prescription refills and view health reminders.

Please note that you will need to renew your access to a minor's account when they turn 12.

How Do I Set Up Proxy Access

- Log in to your MyChart account with your username and password
- Go to the **Profile** menu at the top of the screen and select **Personalize**
- On this screen, you can view records you currently have access to, if any
- Select **Request Access** to a minor's chart
- Complete all of the fields
- When finished, select **Submit Request**
